General Wholesale Catalog 1948

PLANTS and CUTTINGS • BULBS • SEEDS *Insecticides • Fertilizers • Supplies*

IN PRESENTING

you this copy of our new catalog for 1948 I wish to thank all my friends in the trade for their business in the past and trust it will continue throughout the years.

ROMAN J. IRWIN

SATISFACTION GUARANTEED

We are located in the heart of the New York Cut Flower Market. We have nine men on the road traveling extensively in nearly all sections of the country. Our position, for over 30 years, has been one of daily contact with the grower and his needs.

This catalog, we believe, is full evidence in itself of our long established plan to render a complete service to the grower in a full line of **Seeds, Bulbs, Plants, Cuttings, Insecticides, Fertilizers**, etc. At all times we invite inquiries as to prices and all other information.

DISCLAIMER

All orders are received subject to each of the following conditions:

1. We make no warranty, express or implied, as to kind, description, quality or productiveness of any stock and we will not be responsible for crop.
2. We will not be responsible for any errors or omissions and in no event shall our liability for any claim of loss or damage due to any cause whatsoever be greater than the invoice value of the merchandise. This order, if accepted, is subject to pro-rata delivery if conditions in our sole judgment justify it, either on account of short crop, prior sale or for any other reason. We will not be responsible for delays, damages or loss in transit. Our liability ceases upon delivery to the common carrier. All orders subject to acceptance by home office.

PLANTING TABLE FOR COLD STORAGE LILIUM GIGANTEUM AND FLOWERING DATES

Plant. Date	Flower. Date	Plant. Date	Flower. Date	Plant. Date	Flower. Date	Plant. Date	Flower. Date
Jan. 1	April 15 to 25	March 1	June 10 to 30	May 15	August 20	August 1	Nov. 1
Jan. 15	April 25 to May 5	March 15	July 1 to 10	June 1	Sept. 1	Sept. 1	Nov. 25
Feb. 1	May 15 to 30	April 1	July 15 to 30	June 15	Sept. 15	Sept. 15	Dec. 15 to 25
Feb. 15	June 1 to 10	April 15	August 1	July 1	Oct. 1	Oct. 1	Jan. 1 to 10
		May 1	August 10	July 15	Oct. 15		

If LILIUM SPECIOSUM RUBRUM or MAGNIFICUM are planted on the above dates it will take six to eight weeks longer to flower them than the Liliium Giganteum.

Lilium Rubrum or Magnificum should be planted June 15 to July 1 to flower for Christmas.

The above are all approximate flowering dates. If we have extremely warm weather they may flower a week earlier. It all depends on the weather conditions.

ANTIRRHINUM (Snapdragons)

Winter Snapdragons For Greenhouse Culture

High temperature prohibits germination of the seed and one must, therefore, select a cool location for the seed flats.

Damping off is a serious problem and all precautions should be taken to avoid it. The soil should be sterilized with steam or other efficient measures, and after the seed germinates good circulation of air and very little watering will help to prevent this trouble.

Pink and Rose

ASTERS

IMPROVED CREGO

Plants robust, branching about 2½ feet tall, flowers large, double and well formed, one of the finest varieties for all purposes. Blooming mid-August.

AZURE BLUE	PEACH BLOSSOM
BLUE FLAME —Rich Blue	SHELL PINK
CRIMSON	PURPLE or DARK BLUE
DEEP ROSE	WHITE
LIGHT BLUE —Lavender	FINEST MIXED
Tr. Pkt.	1/4 oz. oz.
\$.40	\$.60 \$1.85

AMERICAN BRANCHING (Semple's)

Plants 2½ to 3 feet tall, branching, robust, flowers large, double and fine form. Our selected stocks of these are the best money can buy. Flowers late August and early September.

ROSE	AZURE BLUE or DARK LAVENDER
SHELL PINK —(Mary Semple)	CRIMSON
WHITE —Extra select, long stems	PEACH BLOSSOM
FINEST MIXED	PURPLE
Tr. Pkt.	1/4 oz. oz.
\$.40	\$.60 \$1.85

EARLY GIANT

The finest large flowered, heavy stemmed wilt resistant Aster yet developed. Flowers are of the large Giant of California type, while the plants are shorter, about 1½ feet in height. This class is early blooming, coming into flower by the first week in September.

LIGHT BLUE	ROSE MARIE —Rich rose
PEACH BLOSSOM	MIXED
Tr. Pkt.	1/4 oz. oz.
\$.50	\$.80 \$2.75

(Tilford Strain)

Highly resistant selections which have been developed by Dr. Paul Tilford. Originator's Packets.

ROSE	SHELL
PURPLE	PINK
WHITE	
Tr. Pkt.	
\$1.50	

Various Resistant Varieties

BALL'S WHITE EARLY —White crested center, branching 2 to 2½ feet. Mid-August.	
BALL'S WHITE LATE —White 2½ to 3 feet long stems. Early September.	
BALL'S DEEP ROSE —Bright deep rose, 2½ to 3 feet branching. Late August.	
BALL'S PURPLE —Deep bright purple, 2½ to 3 feet branching. Late August.	
EARLY PHLOX PINK —Clear light rose pink, 2½ to 3 feet. Late August.	
HEART OF FRANCE —Bright red. Late August.	
Tr. Pkt.	1/4 oz. oz.
\$.40	\$.60 \$1.85

PRINCESS TYPE (Wilt Resistant)

A very attractive new cutting type of wilt resistant Aster, 2'-2½' tall, branching and free flowering, early blooming, bearing quantities of flowers on strong stems. Flowers have a full deep crested center, surrounded by several rows of dainty plume-like guard petals. Blooms mid-August.

ANNE —Peach Blossom	MARSHA —Rich cinnabar scarlet
BONNIE —Soft salmon rose	MIXED
Tr. Pkt.	1/4 oz. oz.
\$.50	\$1.00 \$3.00

SINGLE CHINENSIS (Wilt Resistant)

Plant 1½ to 2 feet tall, flowers daisylike, petals wide and closely placed, blooms in late August.

RAINBOW MIXTURE —Special florist strain.	
Tr. Pkt.	1/4 oz. oz.
\$.25	\$.45 \$1.65

BEGONIA

	Tr. Pkt.	1/64 oz.	1/32 oz.
ADELIN —Dwarf bright pink	\$1.00	\$2.50	\$4.50
CARMEN —Compact well formed variety with greenish bronze foliage and clear rose pink flowers	1.00	2.25	4.00
CHRISTMAS CHEER —Medium Dwarf Crimson Scarlet	1.00	2.00	3.50
ILE DE FRANCE —A large pure white with light green foliage. Growth fairly strong	1.00	2.00	3.50
INDIAN MAID —Deep bronze, shiny leaf with red flowers	1.00	2.50	4.50
KING OF THE REDS —Red flowers with green foliage. The dwarf habit of this begonia makes it suitable for pot plants or the border	1.00	2.50	4.50
LUMINOSA — Red	1.00	3.00	5.50
PRIMA DONNA — Carmine	1.00	2.00	3.50
MASTERPIECE —Clear rose pink	1.00	2.25	4.00

WHITE LADY — White	1.00	2.25	4.00
WHITE PEARL — White	1.00	2.50	4.50
SCANDINAVIA — Free flowering. Bright rose pink	1.00	2.75	5.00
TUBEROUS ROOTED —Camelia flowered double type mixed		2.50	

CALENDULA

August sowing will flower from December to February. Early October sowing to follow Chrysanthemums, will bloom in February and March, while January sowing will bloom in April and May.

SENSATION or CAMPFIRE IMPROVED—Brilliant Orange Scarlet Sheen.

BALL'S GOLD—Long stemmed, large, deep golden yellow.

BALL'S LONG ORANGE IMPROVED—Bright orange with light eye. The extra large flowers and long stems make an outstanding variety.

BALL'S ORANGE—Glowing Orange.

BALL'S SUPREME—Orange with dark brown center; unusually free flowering.

LEMON QUEEN—Deep lemon yellow with dark brown eye. Contrasting colors make this yellow variety very effective.

MASTERPIECE—Long stemmed, clear orange flower with dark center.

Tr. Pkt.	1/4 oz.	oz.	1/4 lb.
\$.40	\$.60	\$2.00	\$6.50

CALCEOLARIA

Gilbert's Strains

This is an improvement over the original Multiflora Nana type. Compact habit of growth; good selection of colors in the mixture; excellent foliage.

MULTIFLORA NANA RED	TRIUMPH STRAIN (Grandiflora) —
MULTIFLORA NANA YELLOW	Large flowered strain.
MULTIFLORA NANA MIXED	

Tr. Pkt.
\$1.00

Regular Strain

MULTIFLORA NANA MIXED—Dwarf growth with large compact heads of medium sized flowers. This fine strain contains a good range of colors.

Tr. Pkt.	oz.	oz.
	1/64	1/32
\$1.00	\$4.25	\$8.00

CINERARIA

Positively do not use soil that was previously used for Mums and especially so if your Mums were affected with Verticillium wilt or Seidewitz disease. CINERARIAS are attacked by this wilt which is a soil borne fungus. It will cause the lower leaves to wilt and die and then gradually kill the entire plant. The only prevention for this trouble is to use new field soil from seed flats to finished pot. If you do use old chrysanthemum soil be sure to sterilize it. TO BE ON THE SAFE SIDE IT IS RECOMMENDED TO STEAM STERILIZE SOIL BEFORE USING.

SITER'S RAINBOW STRAIN—This Cineraria carries immense flower heads, is compact in growth and has small round leaves. The medium large flowers range in colors from the bright-eyed types to the finer pastel shades.

Originator's Packets: \$2.00 each

CREMER'S PRIZE STRAIN — This strain has been greatly improved by the originator — has small foliage that is wilt-proof with tremendous heads of flowers of the brightest colors.

Tr. Pkt.	oz.	oz.
	1/64	1/32
\$1.50	\$4.00	\$7.50

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

**CANDYTUFT**

Candytuft should be sown in flats in January and transplanted when the first leaves appear. Plant in the bench or bed about Feb. 15th. Grow in a temperature of 45-50° and good crop may be secured by Memorial Day. Candytuft Giant Hyacinth Flowered White is the most satisfactory type for this method of culture.

GIANT HYACINTH FLOWERED WHITE—Very superior strain growing 1½ feet high, has immense trusses of bloom. We believe it the finest strain to be had.

	Tr. Pkt.	oz.	¼ lb.	lb.
CRIMSON —Purplish red	\$.20	\$.80	\$2.75	\$8.50

Tr. Pkt. oz.
\$.15 \$.75

STOCKS

The non-branching type, which has come into general use, should be planted 3 inches in the row and 6 inches between rows, producing a single stem. The branching types should be planted 8 x 8 inches and topped when 6 inches tall to produce side shoots of sufficient length.

Flowering of stocks only occurs when the temperatures are below 60 degrees for the greater part of the night. To secure the greatest percentage of doubling the largest and most vigorous plants should be selected.

NON-BRANCHING (Excelsior Column Stocks)

CARNATION CUTTINGS OUR SPECIALTY

Our display of Carnation Winners shown at The New York Florists' Club (Carnation Night) held at Hotel Pennsylvania February 1946. **Signe Hasso** (United Artists Star) is holding our Gold Medal Varieties.

Mr. Carnation Grower:

For over 35 years, Carnations have been one of my specialties. Growers from coast to coast and all parts of Europe have told me that the many new carnations introduced by me have been the best.

Before recommending new carnations I make sure of their commercial merit and see them growing several times. I consider the keeping and shipping qualities of new Carnations most important. They must be free flowering with good stems and clean, healthy growers.

In addition to specializing in Carnations in this country, my export business on Carnations has been built up to considerable volume as a result of my recommendation of the best varieties introduced in America. I give particular attention to foreign orders as to special packing, and am familiar with regulations and other details regarding exporting, such as obtaining permits, certificates, etc.

When interested in new varieties write me and I will gladly give you my candid opinion.

ROMAN J. IRWIN

GLADIOLUS BULBS

Clean Healthy high crown bulbs, up to size. Free from disease and thrip.

#1 and #2 bulbs—Write for complete list and prices

PINK, SALMON AND ROSE SHADES

- BETTY NUTHALL. Salmon pink, yellow throat markings.
- *DEBONAIR. LaFrance pink, cream throat.
- *EARLY ROSE. Extra fine early dark rose.
- *ETHEL CAVE COLE. Pure light pink. Rose flecking at edges of petals. Excellent cut flower and market variety.
- *MARGARET FULTON. Clear rose salmon.
- *PICARDY. Large salmon pink.
- *ROSA VAN LIMA. Fine rose pink.
- *ROSY MORN. Beautiful light coral rose, flaked darker, with white throat.
- BAGDAD. Large smoky old rose.
- *MOTHER MACHREE. Beautiful golden smoky lavender.
- VAGABOND PRINCE. Mahogany brown with flame-scarlet blotch.

WHITE AND CREAM SHADES

- *ALBATROSS. Quality white.
- *CORONA. Creamy white shading to cream toward the throat, with rose picotee edging.
- *MAID OF ORLEANS. Creamy white.
- *MARGARET BEATON. Snow white with a tiny scarlet eye deep in the throat.
- *MYRNA. Exhibition ruffled cream, 7 to 10 large, well placed ruffled blooms on straight spike. Excellent commercial.
- *POLAR ICE. Early pure white.
- *SILENTIUM. White blending to cream, with carmine marking in throat.
- *SNOW PRINCESS. Creamy white.
- *VREDENBURG. Early pure white.
- *WANDA. A rich cream sport of Picardy.
- *WHITE PICARDY. Contains 80% Selected Improved Picardy and 20% White Picardy.

RED AND MAROON SHADES

- *BEACON. Bright rose scarlet, large cream blotch.
- *BLAZE. Light scarlet. Many florets open on 4 ft. spikes. One of the finest cut flower varieties.
- *DR. F. E. BENNETT. Large scarlet.
- *JULES AMOT. Beautiful shade of red, lighter than Commander Koehl, one of its parents, but a bit earlier flowering. Strong heavy spike and stem with many open flowers. Excellent for market.
- *RED CHARM. New crimson red, 8-9 large open blooms on straight spike. Placement perfect. Excellent commercial.
- *ROCKET. Rich scarlet-red, 7 to 8 medium large perfectly placed florets on a long spike. Excellent commercial.
- STOPLIGHT. Fine textured clear medium deep red. Excellent cut flower. Perfect placement.
- *VALERIA. Excellent early scarlet. Deeper and better color than Dr. Bennett and a better performer. Good propagator.

BUFF, ORANGE AND YELLOW SHADES

- GOLDEN CHIMES. Beautifully ruffled large light yellow.
- LOYALTY. Clear yellow.
- *MISS BLOOMINGTON. Best yellow for cut. Very early.
- MOTHER KADEL. One of the best clear medium yellows. Fine placement and many flowers open on a tall straight spike.

LAVENDER BLUE AND PURPLE SHADES

- AVE MARIA. Light blue, purple blotch.
- *BERTY SNOW. Exhibition lavender.
- *BLUE BEAUTY. One of the finest medium deep blues. Fine early commercial.
- *KING LEAR. Magnificent purple of great size and lustrous sheen.
- *LAVENDER RUFFLES. Very early clear pinkish lavender, somewhat ruffled.
- MAX REGER. The best light lavender blue with deeper throat markings.
- *MINUET. Orchid lavender.

*Indicates best varieties for forcing.

LARVA-TOX 90-10 (Ethylene Dibromide-Ethylene Dichloride)

A new material that meets government Japanese Beetle Quarantine requirements for treating bare rooted woody stock by the dip method, between October 1 and May 15. More economical than washing.

It has been found excellent to control nematodes and when mixed with DeDeTox, one gallon of each, will make 500 gallons of solution that will treat 500 sq. yards of bench for effective control of wire worms, sow bugs and garden centipedes.

Pint bottle (makes 42 1/2 gal.)\$ 1.00 ea.
 Case of 1210.50
 1 gallon (makes 380 gal.)6.75
 5 gallons (makes 1897.5 gal.)33.00

LARVA TOX FORMULA No. 2 (Ethylene dichloride)

Primarily used in treating potted and balled plants (between October 1 and May 15) to obtain certification for shipment out of Japanese Beetle Area. May also be used to control peach borer. 1 gallon will make 201 gallons of solution.

Pint bottles\$.85
 Case of 127.50
 Gallons4.50

Increase Your Sales by Selling

For Victory Gardens, Lawns, Flower Beds, Evergreens, Fruit Trees, etc.

TO-NA-CIDE is a valuable and well established insecticide, used for many years by growers in Greenhouses and Gardens for Gladiolus, Flowers, and Vegetables grown for the commercial market.

TO-NA-CIDE is used as a control for Thrips, Sow Bugs, Cut Worms, Slugs, Bean Beetle and many other insect pests.

TO-NA-CIDE will also keep away Rabbits, Dogs, and Cats from your Victory or Flower Gardens, Lawns, Evergreens and Fruit Trees, etc. Apply it for the protection of the plants against the annoyances of animal, such as discoloration of evergreens, soiling around shrubbery or digging around flower beds. If used as directed it cannot harm animals or vegetation.

TO-NA-CIDE is a powder which is very easy to apply. Just spread a little around the plants to cover the ground lightly and water it moderately. If plants or vegetables are planted in rows, spread a little TO-NA-CIDE on each side of the rows, about one or two inches away from the plants.

For Pot Plants or Plants in tubs or window boxes, apply a little on top of soil. You will then have less trouble with insects.

TO-NA-CIDE can be used every two or three weeks, if necessary. In case of heavy rains which will in all probability wash away the effectiveness of TO-NA-CIDE, it is advisable to repeat the procedure.

TO-NA-CIDE should never be used on the plants or foliage. Always apply it on the soil around the plants.

Don't use TO-NA-CIDE on a windy day as the powder will blow away. Always apply it on a calm day.

For the past 16 years TO-NA-CIDE was sold exclusively to the Commercial Trade. Its usefulness has been proven by the constant repeat orders and unsolicited testimonials. TO-NA-CIDE is now packaged for the retail trade in 5 lb. bags.

RETAIL PRICE: 5 lbs. \$1.50

When Wanted

Ship Via:

To serve you best, it is necessary that we have your order at least a month in advance of requested delivery date, although often it is possible to make shipment on short notice.

Where we are unable to ship very close to the requested delivery date we will advise you of our growers best estimate of delivery. We suggest you advise whether substitutions will be acceptable when giving the order.

DISCLAIMER

We make no warranty, expressed or implied, as to kind, description, quality or productiveness of any stock and we will not be responsible for crop.

We will not be responsible for any errors or omissions and in no event shall our liability for any claim of loss or damage due to any cause whatsoever be greater than the invoice value of the merchandise. This order, if accepted, is subject to pro-rata delivery if conditions in our sole judgment justify it, either on account of short crop, prior sale or for any other reason. We will not be responsible for delays, damages or loss in transit. Our liability ceases upon delivery to the common carrier. All orders subject to acceptance by home office.

Important Information

NOTICE—We endeavor to send out the very best quality of bulbs, seeds, plants and cuttings, and do our utmost to assure you of stock true to name.

We recommend that shipments go by express, except very small shipments which can be readily mailed. Claims cannot be collected when cuttings are shipped through the mail, hence we recommend express, because a claim can be entered for damages through delay, etc. We mail small quantities only in cool weather as it is unsatisfactory to mail cuttings when the warm weather sets in.

CLAIMS FOR DAMAGES—You must enter a claim against the express company immediately. According to law the transportation companies are the agents of the buyer, and when goods are delivered to and accepted by such agencies the shipper's responsibility ceases. We will, however, gladly assist you in making your claim if you advise us.

TERMS

All bills are subject to 2 per cent discount within 10 days from invoice date. Sixty days net.

Shipments are forwarded by best carrier, in our judgment, at time of delivery, unless otherwise specified by customer.

First-class stock is carefully packed when shipment is made, and we hold good order receipt from the transportation company. Our responsibility ceases thereafter. If the stock reaches you in bad condition, notify agent and bring claim against the delivery company for damage by their negligence, as no allowance for this cause can or will be made by us.

Bulbs, whether shipped on arrival or placed in cold storage for later delivery, may be examined at time of arrival if desired, but no claims will be entertained at a later date. As to all items other than **bulbs**, claims must be made within five days after receipt or they cannot be recognized.

All items in this list are offered subject to crop deliveries and being unsold on receipt of order, and other conditions beyond our control, ALL PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE.

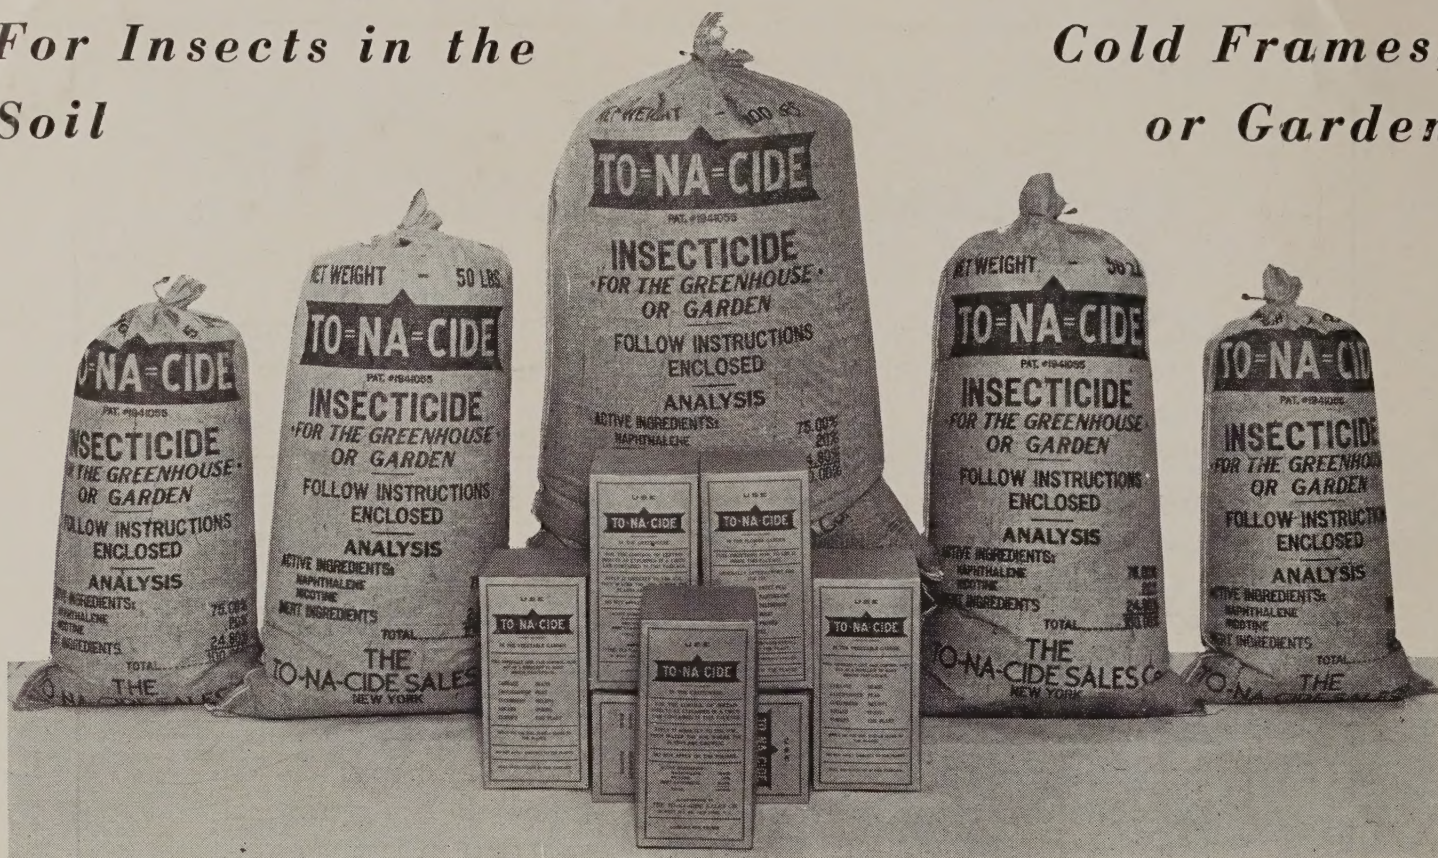

In the interest of time saving, we ask that you authorize us, when necessary to substitute with the nearest similar size or variety.

Note: Purchaser pays transportation on grass and vegetable seeds. We mail all flower seeds free to any point in the United States, at prices listed in this catalog.

New accounts desiring credit, please give three trade references.

*The Leading Insecticide
For Insects in the
Soil*

*For Greenhouse,
Cold Frames,
or Garden*

To-na-cide has for years been the leading insecticide for insects in the soil. It is in powdered form and is used by sprinkling around the plants either in pots or in benches. After applying, it is then left overnight and watered into the soil or lightly pulverized.

To-na-cide is also specially recommended for use on soil being prepared for a planting of any kind thus insuring its being free of insects before the plants or seeds are actually put in.

For the curing of bulbs and tubers such as: Gladioli, Dahlias, Narcissus, Iris, a dusting of To-na-cide is recommended for keeping them free of insects while in storage.

1 lb. covers 60 square feet
25 lbs. covers 1,600 square feet
